"The recent rains have relieved us of the necessity of drawing now upon our storage, and we are getting our full daily supply of about 187,000,000 gallons from the rivers." The Chief Engineer added: "There will be no water famine in New-York this year."

The annual opening of bids for printing "The City Record" took place yesterday. The Martin B. Brown Company, which has been doing this work for many years, will probably get it for 1856.
